ASHWANI DHILLON

Senior Backend Developer & Team Manager

Gurugram, Haryana (Open to Delhi NCR, Mohali, Chandigarh) | +91-9467645677 | ashwanidhillon77@gmail.com | linkedin.com/in/ashwanidhillon77 | github.com/ashwanidhillon77 | Notice Period: 15–45 Days

CORE COMPETENCIES

· PHP · Laravel · CodeIgniter · MySQL · REST API Development · System Architecture · AWS · Payment Gateway Integration · Team Leadership · Agile Delivery · AI/LLM Integration

PROFESSIONAL SUMMARY

Senior Backend Developer with **6+ years** of experience designing, building, and maintaining scalable web applications using **PHP, Laravel, CodeIgniter, and MySQL**. Currently l**eading a 7-member** cross-functional team (backend, frontend, and UI/UX) across **3 concurrent live production projects** in a fast-paced bootstrapped startup environment. Proven track record in end-to-end platform architecture, **REST API development, database design, and payment gateway integration**, with hands-on experience managing **live deployments, cross-team coordination**, and **full project-lifecycle delivery**. Actively upskilling in **Machine Learning** and **AI/Prompt Engineering**, with hands-on experience integrating third-party **AI/LLM APIs** into production systems.

TECHNICAL SKILLS

Languages:
PHP (6+ yrs), JavaScript, SQL, Python

Frameworks & Libraries:
Laravel (4+ yrs), CodeIgniter (6+ yrs), jQuery, HTML/CSS

Databases:
MySQL (6+ yrs)

Payment Gateway Integration:
PayU, PhonePe, Paytm, Cashfree

Tools & Platforms:
Git (GitHub, GitLab), Postman, cPanel, VPS, FileZilla, Zoho Connect

Core Concepts:
REST API Development, System Architecture, Team Management (2+ yrs), Live Project Maintenance & Support, Client Coordination

AI & Emerging Tech:
Hands-on experience integrating AI/LLM APIs (OpenAI, Claude) into production systems; currently upskilling in Machine Learning fundamentals and Prompt Engineering

PROFESSIONAL EXPERIENCE

Senior Backend Developer & Team Manager | IDIGITALPRENEUR Pvt. Ltd.
Dec 2023 – Present | New Delhi, India
(Promoted from Team Leader — Apr 2023; Joined as Jr. Web Developer — Mar 2022)

- Lead a 7-member cross-functional team (backend, frontend, and UI/UX developers) managing 3 concurrent live production projects for a bootstrapped **EdTech** startup — scaled and restructured the team from an initial 9 members through role realignment and targeted hiring.

- Migrated core platform from CodeIgniter to Laravel and shifted all static assets to AWS, eliminating recurring downtime during high-traffic training sessions and improving overall site load performance.
- Reduced server load bottlenecks by moving hosting to a dedicated private server with load-balancing support, resolving traffic-spike slowdowns that previously affected the platform during peak sessions.
- **Rolled out** byobstore.com in two phases (Phase 1 launched 15 days ahead of the 20 Nov deadline; Phase 2 rolled out on 28 Nov), later merging it into the flagship idigitalpreneur.com platform as a physical-products vertical.
- Integrated 3 payment gateways — **Cashfree and PayU** (idigitalpreneur.com **EdTech** platform) and **Paytm** (byobstore.com) — enabling multi-channel transaction processing across products.
- Established and operated **manager.idigitalpreneur.com**, a Lead Management System/CRM used for internal lead tracking and conversion.
- Engineered backend and admin panel for **Lanxers**, a freelance and job portal platform, using PHP and Laravel, in collaboration with the full in-house frontend and UI/UX team.
- Own end-to-end technical delivery across 3 live projects — assigning and prioritizing tasks across a 7-member team, reviewing implementation, and shipping 5+ feature releases per month in a fast-paced startup environment.

Jr. Web Developer | Flowgreen Pvt. Ltd.
Feb 2020 – Mar 2022 | Kota, Rajasthan (Remote)

- Independently engineered a Library Management System for a school client using PHP and CodeIgniter, handling complete backend logic while coordinating with a teammate on server deployment; sustained the system for 7 months post-launch.
- Built a full-featured invoicing and daily-sales CRM from scratch for a retail store client, covering vendor invoice digitization, PDF record uploads, multi-mode payment tracking, and streamlined profit/loss reporting (daily, weekly, monthly, yearly); completed end-to-end backend development over 4 months and managed the system through direct client coordination for 6 months post-launch.
- Collaborated within a 5-member fully remote development team, translating business requirements into functioning production modules through direct client communication.

KEY PROJECTS

- **idigitalpreneur.com** — ***EdTech*** *& Affiliate Marketing Platform (Live)*
  PHP, CodeIgniter, Laravel, MySQL, AWS
  Identified critical performance and scalability bottlenecks in the existing shared-hosting infrastructure and led a complete migration to AWS, restructuring asset delivery to eliminate downtime during high-traffic live sessions. Following the infrastructure overhaul, spearheaded a full platform re-architecture by rebuilding the entire system from CodeIgniter to Laravel — engineering a production-grade e-commerce engine with integrated payment processing, a multi-tier affiliate commission system, and a centralized admin panel for business operations.

- **manager.idigitalpreneur.com** — *Affiliate Network Management System (Live)*
  Laravel, REST API, MySQL
  Designed and independently constructed an API-first microservice to manage a hierarchical affiliate-manager network, enabling organized onboarding and training assignment, alongside structured multi-level commission distribution.

- **Lanxers.com** — *AI-Powered Hiring & Talent Marketplace (Live)*
  PHP, Laravel, MySQL, AI/LLM Integration
  Contributing to an end-to-end recruitment platform integrating AI across the hiring lifecycle — from automated resume parsing and profile generation to ATS-based candidate scoring and AI-assisted content generation for job postings and profile summaries. Collaborating on architecting both Job Seeker and Employer experiences alongside a comprehensive Admin dashboard, with the platform currently in active multi-phase development.

- **byobstore.com** — *E-Commerce & Business Kit Platform (Merged into idigitalpreneur.com)*
  Laravel, MySQL, Paytm Payment Gateway
  Built a full-featured e-commerce platform from scratch supporting physical product sales bundled with digital training

content, complete with an affiliate referral system, certification tracking, and dedicated dashboards for courses, affiliates, and admin operations. Launched Phase 1 five days ahead of schedule, followed by a complete Phase 2 launch within 13 days.

- **eduvince.com** — ***EdTech*** *Course Marketplace (Discontinued)*
  CodeIgniter, MySQL
  Created a Udemy-style course marketplace enabling individual course purchases alongside a refer-and-earn affiliate model, offering a distinct monetization structure from the company's flagship platform to test a different market positioning.

- **indianstartupchampionship.com** — *Business Training & Competition Platform (Discontinued)*
  Laravel, MySQL
  Built a course-based training platform supporting a nationwide business competition, delivering structured entrepreneurship content to prepare participants, with a reward pathway for top performers to launch their own ventures.

- **loanshown.com** — *Loan Application Platform (Discontinued)*
  Laravel, MySQL, Third-Party KYC API Integration
  Executed a complete loan application platform integrating third-party KYC verification for streamlined identity checks across multiple banking partners, taking the project from requirement to full deployment in a 3-day turnaround.

- **Additional Projects** — *apratihast.com, divapratihast.com, astitvafest.com (Discontinued/Transferred)*
  CodeIgniter, MySQL
  Completed a range of additional client and internal projects including a corporate portfolio website, a course and live-training platform with webinar access management, and an event ticketing system with QR-code-based digital tickets and an on-ground entry-validation application.

EDUCATION

Bachelor of Computer Applications (BCA) | Kurukshetra University, **Kurukshetra**
Aug 2014 – Jun 2017 | Safidon, Jind(HR)
